M. YASWANTH

Computer Science & Engineering | Artificial Intelligence & Machine Learning

Andhra Pradesh, India | +91-XXXXXXXXXX | m.yaswanth.email@example.com | linkedin.com/in/m-yaswanth | github.com/m-yaswanth

PROFESSIONAL SUMMARY

Computer Science and Engineering student specializing in AI/ML with hands-on experience in Python, React, Node.js, Express, REST APIs, MongoDB, MySQL, and machine learning. Built full-stack applications, backend APIs, authentication and RBAC modules, dashboards, and NLP classification workflows. Strong foundation in data structures, problem solving, software development, and AI-driven applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS
Frontend: React.js, Tailwind CSS, Vite, Recharts
Backend: Node.js, Express.js, Django, Flask, REST APIs, JWT, Role-Based Access Control
Databases: MongoDB, MongoDB Atlas, MySQL, PostgreSQL
AI/ML: Machine Learning, NLP, TF-IDF, BERT, LSTM, BiLSTM, SHAP, LIME, Hugging Face
Tools: Git, GitHub, Postman, Thunder Client, NPM, Nodemon, VS Code

PROJECTS

Smart Campus Governance Platform | *React, Tailwind CSS, Node.js, Express, MongoDB Atlas, JWT, Recharts*

- Developed a role-based campus governance platform for complaint management, workflow tracking, analytics, and administrative oversight.
- Implemented REST APIs, JWT authentication, RBAC, complaint categorization workflows, SLA and escalation logic, and dashboard visualizations.
- Designed the system around modular frontend/backend architecture to support scalable integration and secure access control.

Human vs AI-Generated Text Classification | *Python, NLP, Scikit-learn, TF-IDF, BERT, LSTM/BiLSTM*

- Built a multi-class NLP pipeline to classify Human-Verified Academic/Scientific text, AI-Generated text, and Human-Written News text.
- Engineered word-level and character-level TF-IDF features and evaluated Logistic Regression, Random Forest, Decision Tree, SVM, and Naive Bayes models.
- Explored deep-learning approaches including BiLSTM and BERT-based hybrid modeling with attention to leakage prevention and generalization.

Online Job Portal | *PHP, MySQL, HTML, CSS, JavaScript, XAMPP*

- Developed a web application for job discovery, posting, and application workflows with database-backed user interactions.

INTERNSHIP EXPERIENCE

Frontend Development Intern | CodeAlpha
May 2025 - June 2025

- Developed responsive web interfaces using HTML, CSS, and JavaScript while improving practical understanding of frontend development and UI implementation.
- Worked on web development tasks with an emphasis on reusable components, browser-compatible layouts, and clean user experiences.

EDUCATION

B.Tech in Computer Science & Engineering (Artificial Intelligence & Machine Learning)
College / University Name, Andhra Pradesh | Expected Graduation: YYYY

CERTIFICATIONS & ACHIEVEMENTS

- Completed 115+ Python problems on CodeChef; earned a 500-difficulty rating certificate.
- Completed Generative AI course and participated in Generative AI and HCL technology masterclass/workshop programs.
- Selected/shortlisted for Infosys Springboard Virtual Internship 7.0 in the Python/AIML track.
